

GET YOUR FACTS RIGHT

OBJECTIVE // Get to know each other.

MATERIALS // Pen and paper.

HOW TO PLAY //

Divide into groups of five. In these small groups, each participant writes one little-known or funny fact about themselves. Then, one person from each group says all five facts, but not who they are about. It is then up to the other groups to match each person with each fact. They write down their answers on slip of paper. This continues until each group has had a chance to present their five facts. The group that gets the most answers correct wins.
